

## Stuttgart

### Reith Schick & Partner Attorneys

#### Comment:

This recommended Stuttgart firm is best known for its notary office (one of the foremost in Stuttgart), Schick's trust law expertise focusing on the healthcare sector and advice to leading family businesses in the region – for which second name partner Reith enjoys a strong reputation. The widening range of services for regional companies led to more transaction work, e.g. cross-border deals and licensing work, since clients are increasingly active internationally. RS&P acts more as a whole than in previous years: the notary office generated valuable new client contacts and achieved cross-selling to other practices.

#### Strengths:

Vast experience in the charity sector, esp. healthcare.
